Level II Training Course of Guided-Wave Testing (GWT) for Pipeline Inspection

The Guided Wave Analysis LLC (GWA) offers 5-day MsS Level II training course to existing level I inspectors who have at least 100 hours of MsS field work experience. This course is more focused on MsS data analysis, and MsS monitoring procedures.

Where: Guided Wave Analysis LLC

Training cost: \$2,500.00 per person (minimum 4 people required for course to make)

Instructor: Sang Kim at Guided Wave Analysis LLC . He is Level III in guided wave testing and ASNT NDT Level III in UT and ET. He has been researching and developing the technology for last 11 years, training inspectors or operators in inspection companies, consulting companies using MsS guided wave systems, and inspecting pipeline, boiler tube, bridge cable, anchor rod, stub angle, HX tube, and plate in facility using MsS system.

Registration: Registration form can be obtained through an email. It should be requested to hk@gwanalysis.com. Registration will be accepted until one business day prior to the training.

Cancellation: Guided Wave Analysis LLC makes the decision to offer each course based on advanced registration. We reserve the right to cancel the course if there is insufficient enrollment.

Refunds: Guided Wave Analysis LLC will refund the course fee for the cancelled course.
